Francois is the younger half-brother of Marie-Victoire and Simon Alexis. He has one sister and five brothers, and his father abandoned him. His mother is too poor and her health too bad to provide for him. He is a real live wire and a bit hyper, but is calming down as time passes by. He has big, beautiful eyes and a great smile.

Francois likes to sing and play with cars and is a very affectionate child who loves getting and giving kisses and hugs. He enjoys going to school and learning English.

Francois loves when Mommy Lynda buys cake, eating rice every day, and getting to eat pizza.
