July (pronounced like Julie) is a gift and is a Rescue Children miracle child. Just after having to relocate the orphanage twice during Christmas 2005 due to kidnap and murder threats, she was rescued, literally, by Rescue Children Orphanage. Abandoned by her mother and left with an old woman with no money to feed her, the woman was on her way to carry July to the garbage dump. The Rescue Children Orphanage Director overheard the lady talking about July and asked Mommy Lynda if the orphanage could take her in. She has a home now and everyone loves her. Her acceptance into the orphanage program represented a sign of new life and birth at the orphanage, and she quickly won everyone's heart.

July is very intelligent and very well-behaved for her age. She rarely cries and is a very happy child with a bubbly personality. She thinks she is as big as the other kids at the orphanage and loves to imitate what they are doing.
