Roberde and his brother Eland were brought to the orphanage by relatives. He has five brothers and four sisters. Both parents are dead, and the relatives were too poor to feed or keep them. Roberde had never been to school before and is now learning to read and write. He is very eager to learn all he can and is very polite. He loves to sing and is very humble.

Roberde loves trips to Kaliko Beach, going to school, and learning English. He appreciates and enjoys having clothes, eating three meals a day (before he ate once, sometimes two times a day only corn, rice, or flour meal), having his own bed, and loves being part of a family.
